2. Petitioner has undertaken extensive research and publication of information on Delaware energy policy to ensure Delaware citizens have competitive energy rates and has been an intervenor in eight rate cases before the Commission. Competitive rates are essential to the economic well being of our citizens. Petitioner wants to explore how adding the cost of state energy policy decisions to ratepayer bills to improve transparency may cause policy improvements to lower costs.
3. Petitioner is an intervenor in current Delmarva Power & Light cases such as the 2012 IRP and 13-115 base rate case. Petitioner is also an IRP Working Group member.
4. Petitioner has demonstrated experience in meeting deadlines to ensure rate cases maintain the schedules of the evidentiary process and intends to do so in this case as well.

Your acceptance of this intervention by the Caesar Rodney Institute as a Petitioner is hereby formally requested.

Respectfully submitted,

  
David T. Stevenson
